## PROJECTS

### Protocol Zero — Portfolio & CTF Blog — 2026 – Present

- › Built and maintain a static site publishing HTB writeups and security research.
- › Documented [22] machines; writeups indexed and searchable by category and difficulty.

### zzyutil — Tool kit · Rust · ratatui · Open Source — 2026

- › Terminal-UI tool for a centralized and quick installation of without leaving your terminal..

### Offensive Python: Vol. I — Reconnaissance · Book · Protocol Zero — In Progress

- › Writing a hands-on guide to offensive Python for aspiring red teamers and CTF players.

## CTF & ACHIEVEMENTS

### HackTheBox · Primary Platform — Ongoing

- › Rank: [ HACKER ] - [22] machines pwned across Easy / Medium / Hard.
- › Specialization: [ Web · AD · Linux PrivEsc ].

### PicoCTF · Team — 2025

- › Actively participated my skills through the competition, solving web exploitation challenges and forensics based challenges

## EDUCATION

### BSc Cyber Security and Risk Management

Botho University  
Expected [2028]

## CERTIFICATIONS

### ● HTB CPTS

In Progress

### ● HTB CWES

In Progress

### ● OSCP

Planned

### ● CEH

planned

## SKILLS

### Offensive

- Web App Testing
- Network Pentesting
- AD Attacks
- PrivEsc
- OSINT
- Recon

### Defensive

- Tier 1 Soc analysis
- DsoS incident response
- AD Attacks

### Languages

- Python
- Rust
- Bash
- PowerShell
